

City & Guilds  
3668- 02

## No Prerequisites Required

### Course Description

Upon successful completion delegates will receive the City and Guilds Level 2 Award in Communications Cabling. This course provides delegates with the opportunity to learn both theoretical and practical skills of fibre optics and/or copper cabling. Learners will gain insight into the communications cabling industry and an understanding of the services offered as well as terminology, health & safety regulations, and the skills to install fibre optics.
