

NRSA- Unit O2- Excavation in the highway

**Prerequisites
Required: NRSA
LA and O1**

Course Description

This unit is designed to allow the candidate to demonstrate the skills and knowledge required to carry out excavation in the highway. The candidate will be able to identify the characteristics of different types of footway and carriageway, and their construction layers. They will be able to excavate safely, in line with the relevant specifications and codes of practice, and will show that they can support underground apparatus that they encounter during excavation. The candidate will also be able to identify, select and store excavated material that can be re-used as backfill.

Cost

£222.75 + VAT

Duration

1 Day
