

SA107 FTTP Customer Installations in Multi-Dwelling Units

**Prerequisites
Required:
SA029 & SA031**

Course Description

This course supports engineers carrying out customer installations inside Multi-Dwelling Units. Learners will cover key installation activities including fibre cabling, ONT positioning and termination, router installation and configuration, service commissioning, and professional customer handover.

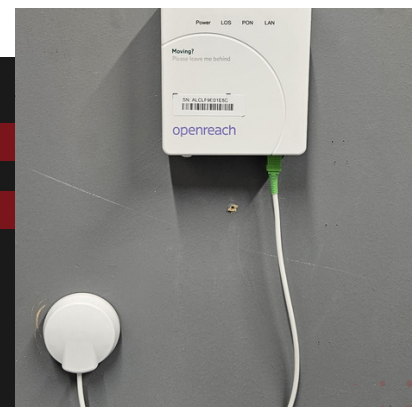

These courses are particularly suited to telecoms contractors, installation teams, and utility companies looking to strengthen their FTTP delivery capability, reduce on-site errors, improve customer experience, and ensure engineers are working safely and in line with recognised industry good practice.

Cost

£181.50 + VAT

Duration

1 Day
